

# B.BAREPRO

## IT'S NOW SO SIMPLE TO LAMINATE YOUR CLIENTS BROWS

BBare Pro Brow Lamination is a highly profitable brow treatment and is easy to add to your treatment menu. Our custom formulated brow range is designed to be gentle on your clients brows and skin whilst still producing camera worthy brows.

### BBARE PRO TIP

APPLY THE GLUE IN SECTIONS TO AVOID THE GLUE SETTING BEFORE YOUR BROWS ARE IN PLACE

- STEP 1** Remove any makeup and cream from the clients brows using the brow cleanser.
- STEP 2** Sparingly apply the glue to the brows and brush your clients brows upwards or in the direction you would like the brows to set using a spoolie brush.
- STEP 3** Once they are set in place, Apply Step 1 using a micro applicator. Ensure the product is applied right from the roots to the tips.
- STEP 4** Apply Brows On Film to help the process.
- STEP 5** Once the development time is up, remove all products using a cotton pad.
- STEP 6** Rebrush the brows into their final position and apply Step 2.  
  
Check the development time for your clients brows and wait...
- STEP 7** Apply Brows On Film over the brows.
- STEP 8** Once the development time is up, remove all products using a cotton pad.
- STEP 9** Gently brush the brows and apply Step 3 hydrate serum.

YOUR CLIENT WILL NOW HAVE  
**CAMERA-READY-BROWS**

### TIPS & TRICKS

Keep the brows dry for 24 hours after your lamination treatment.

Apply your brow growth balm directly onto your brows after 24 hours.

If you have strong, coarse stubborn brows miss out the glue for a stronger result.
